

**Supply**

**WAR RESERVE MATERIEL**

---

AFMAN 23-110, Volume 2, Part 2, Chapter 26, 1 Apr 99 is supplemented as follows:

**SUMMARY OF REVISIONS**

This supplement supersedes AFMAN 23-110, Volume 2, Part 2, Chapter 26, ANG SUP 1, dated 6 March 98. Further clarifies/revises contents of mobility bags, deletes tariff sizing charts and allows the tariff sizing to be proportioned appropriately at each unit. Adds support kits and guidance for gas mask support kit, weapons parts support kit, and weapons cleaning support kit. Adds additional information of web sites available for sourcing DRMO and shelf-life/CWDE. Adds a list of T.O.s for referencing CWDE. Changes references from MAITS to MAITS/MICAS, changes references from AFM 67-1 to AFMAN 23-110. Deletes references to gaining command unique bag items. AFMAN 23-110, Volume 2, Part 2, Chapter 26 is applicable to the Air National Guard (ANG) with the following additions. Compliance with this publication is mandatory.

**Section 26A – WRM PROCESSING RESPONSIBILITIES.**

**26.5. WRM Requirements.**

26.5.1. (Added) (ANG) Submit all Mobility Readiness Spares Packages (MRSP), In-Place High Priority Mission Support Package (IRSP), High Priority Mission Support Kits (HPMSK) recommended additions, changes, or deletions to ANG/LGSW, according to AFMAN 23-110, Vol 1, Pt 1, Ch 14.

**26.8. Maintenance of WRM assets.**

26.8.2. The Chief of Supply (COS) will assure that a quarterly-dated item review is accomplished. Maintain a copy of the review until superseded.

26.8.3.1. (Added) (ANG) Hazardous material (flammable, combustible, and chemical items) may be stored in the Readiness Spares Packages (RSP) with the concurrence or authorization of the host base hazardous material pharmacy (HMP)/hazmat. Hazardous material in RSPs will be maintained in approved containers and segregated from other assets. Authorized quantities will equal RSP detail authorizations. The pharmacy will control and track hazardous RSP material as it would other shop stock. War readiness personnel will notify the HMP of pending RSP deployment and redeployment so the Environmental Management Information System (EMIS) data base may be updated.

26.8.3.2. (Added) (ANG) All units maintaining hazardous material in a deployable package will have the following minimum essential protective clothing available during deployments and transported with the package. Maintain a minimum of two sets of the following protective clothing for handling assets:

- Rubber Overshoes
- Rubber Chemical Gloves
- Rubber Lab Apron
- Face Shield
- Safety Goggles
- 320Z Eyewash

26.8.3.3. (Added) (ANG) Chemical items can be segregated in the hazardous storage facility at the home station until time for deployment. War readiness section and hazardous material pharmacy personnel will assure that each RSP line item identified as hazardous material has a material safety data sheet (MSDS) available.

26.8.4. (Added) (ANG) War readiness section will screen the daily document register (D04) for internal changes affecting RSP details.

## **26.9. Functional Check Monitoring of WRM.**

26.9.3. The COS will determine the appropriate storage of items being held, pending functional check.

26.9.4. (Added) (ANG) Built-up Items. All wheels and tires stored in a MRSP will be maintained in a built-up configuration for the total wheel authorization.

## ***Section 26 B -- WRM RECORDS.***

### **26.17. Establishing and Maintaining MRSP/IRSP Serial Number and Control Records.**

26.17.2. MRSP, IRSP, and HPMSK serial numbers are developed by the appropriate MAJCOM and provided during the annual RSP review cycle. Changes to the serial numbers or control records will not be processed without approval from ANG/LGSW.

### **26.18. Accounting for In-Place Readiness Spares Package.**

26.18.2. Retain authorization listings, diskettes, or tapes until superseded by new authorization files. Updated files will be extracted from the ANGRC FTP server.

**26.22. Base Civil Engineer (BCE) IRSP Responsibilities.**

26.22.1.1. Pilferable items are authorized storage in Base Civil Engineer IRSPs, provided secure storage is available.

*Section C -- MOBILITY READINESS SPARES PACKAGE (MRSP), HIGH PRIORITY MISSION SUPPORT KITS (HPMSK), CONTINGENCY HIGH PRIORITY MISSION SUPPORT KIT (CHPMSK), MISSION SUPPORT KITS (MSK), WEAPONS TRAINING DETACHMENT OPERATING SPARES (WTDOS).*

**26.23. Overview.**

26.23.10. (Added) (ANG) All note code five authorizations will be reviewed annually by supply and maintenance to determine the correct percent of application.

**26.26. Asset Deployment and Transfer.**

26.26.1.1. (Added) (ANG) The Mission Capable Asset Sourcing System (MASS) Global freeze code is not authorized at any time unless approved by HQ USAF/ILSP.

26.26.1.2. (Added) (ANG) Contingency Joint Chiefs of Staff (CJCS) project codes may be applied only to those aircraft that are deployed. RSP and end items tasked for the deployment may apply nine days prior to load or departure date. For MRSP and Mission Capable (MICAP) requisitions, the project code may be used 25 workdays prior to load or departure date.

26.26.2. Use the applicable MRSP, HPMSK, and Mission Support Kit (MSK) listings to accomplish pre-deployment inventory actions. War Readiness Section (WRS) will use the listings to verify accuracy of stock numbers, details, detail locations, and serviceable balances. Submit an inventory adjustment to the inventory element on unresolved discrepancies. Maintain a signed copy of the applicable listing in WRS during deployments and for 90 days after completion of the deployment.

26.26.2.1. WRS will assign the deployment indicator to the detail records of the deploying MRSP at least nine days prior to scheduled deployments. If the deployment is short notice, assign the deployment indicator upon notification. In either case, a pre-deployment inventory is required. The COS has the option to designate the actual counting of property to personnel outside the inventory element. Provide ANG/LGSW a list of RSP shortages. List must include National Stock Number (NSN), quantity authorized, shortage amount, Expendability/Recoverability/Reparability/Cost designator (ERRC), and segment.

26.26.2.1.1. (Added) (ANG) An annual reconciliation between the base, ANG/LGSW, and the Air Logistic Center (ALC) will be determined by ANG/LGSW.

26.26.2.3.4. Post-deployment actions. Process all transactions and clear discrepancies prior to processing the inventory option of the applicable listing.

#### **26.32. Establishment and Maintenance of Mission Support Kits.**

26.32.1. ANG/LGSW must approve the establishment of both temporary and permanent MSKs. MSKs may be used for short term (less than 30 days) for less than full Primary Aircraft Assigned (PAA) deployments. Authorized asset quantities will not exceed the requisitioning objectives.

#### ***Section D -- WRM EQUIPMENT.***

#### **26.34. Authorization.**

26.34.4.6. Equipment management element (EME). Send requirements through Air Force Equipment Management System (AFEMS) for mission-essential items not in an Allowance Standard (AS) or exceeds AS basis of issue to ANG/LGSE.

#### ***Section F -- INDIVIDUAL MOBILITY BAGS.***

#### **26.42.3. Instructions.**

26.42.3.1. Tariff sizing may be determined locally by the COS; however, requirements will not exceed the percentages listed in paragraph 26.44.1.4 below.

#### **26.43. Mobility Bag Storage and Management Responsibilities.**

26.43.1. A supported unit may negotiate in writing that they will manage and store their own bags.

26.43.1.1 (Added) (ANG) Mobility bags may be stored in one of three configurations: a. Individually sized and built-up b. Tariff sized and built-up c. Bulk stored.

26.43.2.1. If bags are stored by the using activity, they will use the Mobility Automated Inventory Tracking System (MAITS) / Mobility Inventory Control and Accountability System (MICAS) to account for all mobility bag assets and forward the data to the mobility element in base supply. The using and storing activity will also be responsible for preparation and packaging, updating contents, inventory, and maintenance. All units authorized to maintain mobility bags are required to maintain accountability in MAITS/MICAS and provide host base supply with asset posture and status.

26.43.2.2.2. (Added) (ANG) Geographically Separated Units (GSU) storing their bags. Management and maintenance of unit mobility bags will be accomplished in accordance with Host/Tenant Support Agreements.

**26.44. Mobility Bag Authorizations.**

26.44.1.4. (Added) (ANG) A minimum 10-percent additive is authorized for "A," "B," and "C-1" bags to offset changes in tasking and tariff-sizing requirements. A 20-percent safety level may be maintained for B bag requirements. Do not turn in excesses to stock without approval of ANG/LGSE. Report all standard excess mobility bag components to ANG/LGSE for possible redistribution. Provide NSN, name, and quantity.

26.44.3.1. (Added) (ANG) The mobility section will prepare custody receipts/ or locally developed form to produce temporary receipts in at least two copies.

26.44.3.2. (Added) (ANG) Filing temporary issue receipts in alphabetical sequence may be used in lieu of filing in individual personal equipment issue folders.

26.44.3.3. (Added) (ANG) For AMC-gained units, an E-bag is authorized for 50 percent of the total manpower requirements (AMCI 10-403)

**26.45. Chemical Warfare Defense Equipment.**

26.45.3. Requisitioning Chemical Warfare Defense Equipment. ANG bases (ANG OCONUS units included) will follow the guidance in AFI 23-226 pending implementation of the Mobility Inventory Control and Accountability System (MICAS).

26.45.3.1. (Added) (ANG) Logistics Plans personnel will provide the mobility element with the number of required assets to support MPNs.

26.45.4.1. (Added) (ANG) Applicable Technical Orders (T.O.s). will be maintained for all using and storing activities. Additional T.O.s will be required as new equipment becomes available. The following T.O.s should be maintained by any activity that stores or uses any of the items. (This list is for reference only and is not inclusive)

- TO 14P3-1-141 Groundcrew Chemical Defense Ensemble
- TO 14P4-1-151 Chemical-Biological Filter Elements Serviceability List
- TO 14P4-15-1 Chemical-Biological Mask Type MCU-2/P, MCU-2A/P
- TO 11D1-1-131 Decontamination Kit, Skin M291
- TO TM 3-4230-235-10 Operators Manual for Decontamination Kit, individual equipment M295
- TO 11H2-2-21 M-9 Detector paper

- TO 11H2-14-5-1 M-8 Detector paper

26.45.6.1. (Added) (ANG) **Note:** Shelf life information can be obtained from FTP 147.217.198.6 or website <http://aeaps2.ria.army.mil/ssn> formerly known as the Soldiers Support Network. As always AFCEA is still the primary Air Force source.

26.45.6.2. (Added) (ANG) Gas mask will be inspected immediately upon receipt and documented on DD Form 1574 or AFTO Form 152 to initiate inspection.

26.45.6.3. (Added) (ANG) All C-1 bag items will be inspected for serviceability and repaired IAW applicable T.O.s.

26.45.6.4. (Added) (ANG) Training assets are maintained separate from operational assets and visibly marked according to applicable Technical Orders (T.O.s). **Note:** The Gas Mask and A-1 Mobility Bag are the only operational equipment authorized for training. Commanders will be responsible for training assets issued to their organization. Units will maintain sufficient training equipment to support training and exercise objectives. Commanders will forward all training requirements to the COS for consolidated base requirements and check for availability at DRMS (website is [www.drms.dla.mil/newrtd/html/milstrip\\_tagging.html](http://www.drms.dla.mil/newrtd/html/milstrip_tagging.html)) before submitting training requirements to ANGRC.

#### 26.45.7. (Added) (ANG) GAS MASK AND WEAPONS SUPPORT KITS (OPTIONAL)

26.45.7.1. (Added) (ANG) Policy. Support kits are required for gas masks and small arms to perform daily maintenance and repairs at the deployed location. These kits are designed to provide initial 30-day support for the deployed unit and will be tailored to meet the quantity of individuals deploying. Reconstitution is required to prevent depletion of stock without replacement.

26.45.7.2. (Added) (ANG) Gas Mask Support Kit. The base supply Mobility Bag Element will maintain sufficient assets to support total mobility bag authorizations. Kits will be tailored as required to meet the number of personnel tasked to deploy (Table 26F – 4.3.). Gas mask support kit parts will be reconstituted upon the return from deployment and when used for training. Kits will be reconstituted and funded as outlined in 26.45.8.

26.45.7.3. (Added) (ANG) Weapons Cleaning Support Kits. The base supply Mobility Bag Element will maintain all required assets in one kit to support the cleaning requirements of M16 and 9MM small arms, based upon the Wing Logistics Plans annual weapons authorization validation. Units authorized to store their own weapons are required to maintain their own cleaning kits (Tables 26F – 4.4. and 26F – 4.5.) Units will store, maintain, and ship lubricants and cleaners in accordance with applicable Material Safety Data Sheet (MSDS). Obtain MSDS through the Hazardous Material Information System (HMIS). Ship and Store the applicable MSDS with the appropriate lubricants and cleaners. The kit will be tailored to support the number of weapons deployed.

26.45.7.4. (Added) (ANG) Weapons Parts Support Kits. The base supply Mobility Bag Element will maintain sufficient assets to support M16 and 9MM small arms. The items contained in these kits are strictly for use by combat arms personnel only. Weapons Parts Support Kits will be maintained separately from the Weapons Cleaning Support Kit. The kits deployed will be tailored to support the number of weapons deployed (Tables 26F – 4.4. and 26F -- 26.5.). Kits will be reconstituted and funded as outlined in paragraph 26.45.8. Parts kits are pilferable items and require secure storage.

26.45.8. (Added) (ANG) Funds Management Responsibilities. Funds will be allocated to the established PFMR and OCCR. Units will ensure that the annual dollar requirements are included in the base O&M financial plan for mobility assets. Budget for initial and reconstitution costs of mobility bags, support kits and special sized equipment to include CWDE. Establish memo due-out with Tex code “H” to budget for O&M funded mobility requirements.

26.45.9. (Added) (ANG) Special Sized Equipment. Follow special measurement clothing and footwear requisitioning instructions as outlined in AFMAN 23-110, Vol 2, Pt 2, Chapter 23 and Vol 1, Pt 1, Chapter 25 (i.e., X-small gas mask and size 19 GVO). Orders must satisfy all four ensembles (full basis of issue) and an additional ensemble for training purposes IAW AFI 32-4001. Funding will be unit O&M IAW Chapter 6.

**Note:** (Added) (ANG) Mobility bag custodians will notify the Hazardous Material Pharmacy (HMP) on deployment of any items within the mobility bags coded with issue exception code 8 or 9 and classified as hazardous material in accordance with Federal Standard 313c.

***Section L -- BASE PROCESS PROCEDURES, WRM LIST AND REQUIREMENTS (XTJ/XVF).***

26.69. Complete this action within 10 working days after receipt of the master authorization files for each type of RSP (MRSP/IRSP/HPMSK). Request extensions in writing (message or letter) to ANG/LGSW. Requests for extensions must be accompanied by a complete explanation and expected completion date.

26.69.1. (Added) (ANG) All bases will perform airborne RSP reconciliations semiannually and upon receipt of new or revised RSP authorization files. Forward a signed copy of the RSP reconciliation (S05) report to ANG/LGSW no later than 31 Mar and 30 Sep of each year.

26.69.2. (Added) (ANG) All bases will perform non-airborne RSP reconciliation's annually. Forward a signed copy of the War Reserve Validation Report (R70) no later than 31 January of each year to ANG/LGSW.
